SECTION 1
TECHNICAL TERMS

1.1 Definitions

Certain terms used generally throughout this tariff are defined below:

(D)

Central Office: A facility within a telecommunications system where calls are switched and which contains all necessary equipment, operating arrangements and interface points for terminating and interconnecting facilities such as subscriber lines and interoffice trunks.

Competitive Telecommunications Service: Any telecommunications service where Customers of the service within the relevant market have or are likely to have reasonably available service alternatives.

(T)

Commission: The Arizona Corporation Commission.

Company: Time Warner Telecom of Arizona, L.L.C., the issuer of this tariff.

(T)

Customer or Subscriber: The person, firm, corporation or other entity that orders, cancels, amends or uses service and is responsible for the payment of charges and compliance with the Company's tariffs and regulations.

(T)

|

(T)

Customer Premises Equipment (CPE): Terminal equipment connected to the Company's network and residing on Customer's premises.

(N)

(N)

Dual Tone Multi-Frequency (or "DTMF"): The pulse type employed by tone dial station sets.

(M)

|

SECTION 1 - TECHNICAL TERMS *continued*

1.1 Definitions *continued*

End User: Any person, firm, corporation or other entity that uses the Company's services under the provisions and regulations of this tariff.

ICB: Individual Case Basis.

LATA: Local Access and Transport Area. A geographic area established under the Modified Final Judgment entered by the U.S. District Court for the District of Columbia in Civil Action No. 82 – 0192, or any other geographic area designated as a LATA in the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 4.

Local Exchange Area: One or more exchange areas wherein a basic exchange service Customer may make calls without incurring a message toll charge.

Local Exchange Service: The telecommunications service that provides a local dialtone, access line and local usage within an exchange or local calling area.

LEC: Local Exchange Carrier, a telecommunications company that provides local exchange service as one of the telecommunications services it offers to the public.

Off-Net Service: Service provided by the Company that is carried in part on the Company's network. (N)
(N)

On-Net Service: Service provided by the Company that is carried entirely on the Company's network. (N)
(N)

AZL0201

ORIGINALSECTION 1 - TECHNICAL TERMS *continued*1.1 Definitions *continued*

Rate: The maximum tarified rate approved by the Commission, from which the competitive telecommunications service provided may be discounted to the total service long run incremental cost of providing the service.

Recurring Charges: The monthly charges to the Customer for services, facilities and equipment, which continue for the agreed upon duration of the service.

Service Commencement Date: The first day following the date on which the Company notifies the Customer that the requested service or facility is available for use, unless extended by the Customer's refusal to accept service which does not conform to standards set forth in the service order or this tariff, in which case the Service Commencement Date is the date of the Customer's acceptance. The Company and Customer may mutually agree on a substitute service commencement date.

Service Order: The request for services executed by the Customer and the Company in the format devised by the Company. The acceptance of a service order by the Company initiates the respective obligations of the parties as set forth therein and pursuant to this tariff.

Telecommunications Service: Any transmission of interactive switched and nonswitched signs, signals, writing, of any nature by wire, radio, lightwave or any other electromagnetic means (including access services), which originate and terminate in the state, and are offered to or for the public, or some portion thereof, for compensation.

VersiPak: Service provided to Customers that allows the grouping of rate components to meet a Customer's specific needs.

(N)
(N)

911 Service: A basic 911 system which consists of a telephone service that automatically connects a person dialing the single three-digit number 911 to an established public safety answering point through normal telephone service facilities. 911 service also refers to any enhancement of a basic 911 system.

SECTION 2 - GENERAL REGULATIONS *continued*

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of the necessary facilities and equipment, and subject to the provisions of this tariff. The Company has the right to limit the manner in which any portion of its telecommunications network ("Network") is used to protect the technical integrity of the Network.
- 2.2.2 The Company reserves the right to discontinue or limit service or impose requirements as required to meet changing regulatory requirements, or when such requirements have a material adverse economic affect on the feasibility of providing service, as determined by the Company in its reasonable judgment, or when necessitated by conditions beyond its control, or when the Customer is using service in violation of provisions of this tariff, or in violation of the law.
- 2.2.3 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.
- 2.2.4 All facilities provided under this tariff are directly or indirectly controlled by the Company and the Customer may not transfer or assign the use of service or facilities without the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.
- 2.2.5 The Customer may not assign or transfer its rights or obligations hereunder without the prior written consent of the Company, which shall not be unreasonably withheld or delayed. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service. (T)
|
(T)
- 2.2.6 Service is furnished on the condition that it will be used only for authorized and lawful purposes.

GENERAL REGULATIONS

(T)(M)

2.3 Use

Services provided under this tariff may be used for any lawful purpose for which the service is technically suited.

2.4 Liabilities of the Company

2.4.1 The liability of the Company for direct damages or personal injury caused by its willful misconduct or gross negligence which is the sole legal cause of damage or injury is not limited by this tariff. With respect to any other claim or suit, by a Customer or by any others, for damages associated with acts or omissions involving initiation, installation, provision, moving, changing, termination, maintenance, repair, errors, omissions, delays, interruption or restoration of any service or facilities offered under this tariff, the Company's liability, if any, is limited to 1/30 of the monthly charge for service affected for each 24-hour period during which such failure of service occurs and is reported to or known by the Company. In addition, Customer credits for interrupted service will be issued, where applicable, in accordance with the provisions of Section 2.13.

2.4.2 In no event will Company be responsible for consequential damages or lost profits suffered by Customer.

2.4.3 The Company is not liable for any act or omission of any other company or companies furnishing a portion of the service which service or equipment is related to the Service supplied by the Company, but is not furnished by the Company. No agents or employees of other carriers shall be deemed to be agents or employees of the Company.

GENERAL REGULATIONS

2.4 Liabilities of the Company, (Cont'd)

(T)

2.4.4 The Company shall be indemnified and held harmless by the Customer against:

- a. Claims for libel, slander, infringement of copyright or unauthorized use of any trade mark, trade name or service mark arising out of the material, data, information, or other content transmitted by the Customer over the Company's facilities; and
- b. Claims for patent infringement arising from combining or connecting the Company's facilities with apparatus and systems of the Customer;
- c. All claims of any kind by Customer's end users; and
- d. All other claims (including, without limitation, claims for damage to any business or property, or injury to, or death of, any person) arising out of any act or omission of the Customer in connection with any service provided by the Company.

2.4.5 The Company will make no refund of over-payments by a Customer unless the claim for such overpayment together with proper evidence be submitted within 120 days from the date of alleged overpayment.

GENERAL REGULATIONS

2.5 Equipment

2.5.1 The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a telephone set, PBX or key system. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided. The Company shall have no obligation to install, maintain, repair or operate Customer-provided equipment. The Customer is responsible for all costs incurred at its premises in connection with its use of Company's service including, but not limited to, personnel, wiring and electrical power. When such terminal equipment is used, the equipment shall comply on a continuing basis with technical specifications established by the Company. In the event that the Company, in responding to a Customer-initiated service call, determines that the cause of such service call is a failure, malfunction or inadequacy of Customer-provided equipment, the Customer shall compensate the Company for such service call at the Company's then prevailing rates.

2.5.2 Other than the facilities, termination equipment or channel derivation equipment provided by the Customer, the Company will provide, install, and maintain, repair, operate and control any equipment, cable or facilities associated with or connected with its network. Unless otherwise provided, the Company is responsible for purchasing such equipment and such equipment remains the property of the Company. The Customer is responsible for any loss or damage to such equipment arising out of the negligent or willful act of the Customer or its agents, employees, or authorized users.

ORIGINALSECTION 2 - GENERAL REGULATIONS *continued***2.6 Installation and Termination**

2.6.1 Service is installed upon mutual agreement between the Customer and the Company. The service agreement does not alter rates and charges specified in this tariff.

2.6.2 If the Customer wishes to delay the requested due date for commencement of service, the Customer must notify the Company, in writing, at least 72 hours prior to the original requested due date. The Customer shall pay the Company an Order Supplement Charge of \$30.00 and pay the Company for any third party charges incurred by the Company to meet the original due date prior to receipt of such notice. When accepting service, the Customer may not alter the completion date entered on the Service Acceptance form to delay the commencement of billing.

(T)
(T)

If the Customer cancels its order for service prior to the service due date, a Cancel Order Charge will apply.

(N)

<u>Time of Cancellation</u>	<u>Cancel Order</u>
Prior to completion of Design Layout Record	\$100.00 per Circuit
After completion of Design Layout Record, but prior to Firm Order Confirmation	\$250.00 per Circuit
After completion of Firm Order Confirmation, but prior to Plant Test Date	\$400.00 per Circuit plus TWTC expenses
After completion of Plan Test, but prior to Due Date	\$500.00 per Circuit plus TWTC expenses

SECTION 2 - GENERAL REGULATIONS *continued*

2.6 Installation and Termination *continued*

2.6.3 The Company may terminate Service if the Customer's material breach of the service agreement is not corrected within thirty (30) days of written notice thereof. Termination for any reason shall not relieve the Customer of liability incurred prior to termination. If the Customer terminates Service(s) prior to the end of the term, the Customer's termination liability shall be 100% of the monthly recurring charges for the remaining term of the Service(s), if such termination occurs during the first twelve (12) months, and 50% of the monthly recurring charges for the remaining term of Service(s), if such termination occurs after the first twelve (12) months. The Company reserves the right to impose termination charges at a higher rate than stated hereunder if the Company incurs unusually high capital costs to provide or remove Service(s) to or from the Customer's location.

2.6.4 Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service. (T)

ORIGINALSECTION 2 - GENERAL REGULATIONS *continued*2.6 Installation and Termination *continued*

2.6.5 The Customer may request an estimate or a firm bid before ordering wire installation work to be done. When an estimate is provided, the estimate is not binding on the Company and the charge to be billed will be based on the actual time and materials charges incurred. When a firm bid is provided at Customer request, the charge to be billed is the amount quoted to the Customer for the work requested.

Inside Wire charges apply per service call when billable premises work is performed on noncomplex premises wire and jacks. Such Charges are due and payable when billed.

Noncomplex wire, jacks and materials include:

- 2 to 6 pair inside wire
- Faceplates
- RJ11C, RJ14C, RJ11W and RJ14W type station jacks
- Staples, screws, nail, tape, connectors, etc.

SECTION 2 - GENERAL REGULATIONS *continued*2.7 Payment and Credit Regulations2.7.1 Payment Arrangements

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer for transmission of calls via the Company's Network. The Customer agrees to pay to the Company any cost(s) incurred as a result of any delegation of authority resulting in the use of the Customer's communications equipment and/or network services which result in the placement of calls via the Company's Network. The Customer agrees to pay the Company or its authorized agent any and all cost(s) incurred as a result of the use of the service arrangement, including calls which the Customer did not individually authorize.

Billing for services begins on the date the Company notifies the Customer that service has been installed and tested by the Company and is available for the Customer's use ("Service Commencement Date"). Charges for Services, including applicable federal, state, and local taxes, will be billed in advance, except for charges based on usage, which will be billed one month in arrears. Charges are due within thirty (30) days from the date of the bill, but in no event later than the commencement of the next billing period.

Any objections to billed charges must be promptly reported to the Company or its billing agent in writing with supporting documentation within 120 days of receipt of billing or such objections will be deemed waived. Adjustments to Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

Upon termination of service for any reason, all amounts due from the Customer to the Company, including, but not limited to, charges for services rendered and termination liability as provided in this tariff, shall become immediately due and payable by the Customer.

Charges for installations, service connections, moves, and rearrangements, and other engineering services performed by the Company, where applicable, are payable upon demand by the Company or its authorized agent. The billing thereafter will include recurring charges and actual usage as defined in this tariff.

The Customer shall be responsible for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for any calls placed by or through the Customer's equipment via any remote access features. The Customer is responsible for all calls placed via their authorization code as a result of the Customer's intentional or negligent disclosure of the authorization code.

2.7.2 Deposits

The Company reserves the right to require a deposit as a condition to the initial provision of Services or as a condition to the continued provision of Services. Deposits will accrue interest at the rate of 6% per annum, or at such other rate established by the Commission.

GENERAL REGULATIONS2.10 Refusal or Discontinuance by Company

(T)(M)

The Company may refuse or discontinue service under the following conditions and in accordance with the rates and regulations of the Arizona Corporation Commission. Unless otherwise stated, the Customer will be given five (5) day's written notice and allowed a reasonable time to comply with any rule or remedy any deficiency.

- (a) For non-compliance with and/or violation of any State or municipal law, ordinance or regulation pertaining to telephone service.
- (b) For the use of Company's service or other property for any purpose other than that described in the Customer's application for service.
- (c) For failure or refusal to provide the Company with a deposit to insure payment of bills in accordance with the Company's regulations or failure to meet the Company's credit requirements. (See Section 2.7.2).
- (d) For neglect or refusal to provide reasonable access to the Company for the purpose of inspection and maintenance of equipment owned by the Company.
- (e) For non-compliance with and/or violation of the Commission's regulations or the Company's rules and regulations on file with the Commission, provided five (5) working days' written notice is given before termination.
- (f) For non-payment of bills for telephone service. Suspension or termination of service shall not be made without five (5) working days' written notice, to the Customer, except in extreme cases.

GENERAL REGULATIONS

2.10 Refusal or Discontinuance by Company, (cont'd)

- (g) Without notice in the event of Customer use of equipment in such a manner as to adversely affect the Company's equipment or the Company's service to others.
- (h) Without notice in the event of tampering with the equipment furnished and owned by the Company.
- (i) Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the Company, before restoring service, may require the Customer to make, at his own expense, all changes in facilities or equipment necessary to eliminate illegal use.
- (j) For failure of the Customer to make proper application for service.
- (k) For Customer's breach of the contract for service between the Company and the Customer.
- (l) When necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.

2.11 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Customer shall be made available to the Company for tests and adjustments as may be deemed necessary by the Company for maintenance. No interruption allowance will be granted for the time during which such tests and adjustments are made when the interruption is less than twenty-four consecutive hours.

GENERAL REGULATIONS

2.12 Tests, Pilots, Promotional Campaigns and Contents

The Company may conduct special tests, pilot programs, waivers and promotions at its discretion to demonstrate the ease of use, quality of service and to promote the sale of its services. Such promotions will be filed with the Commission on not less than thirty (30) days notice.

2.13 Credit Allowances for Interruption of Service

The Company will credit the Customer as set forth below for interruptions in service which is provided entirely on the Company's network not due to the negligence of or non-compliance with the provisions of this tariff by the Customer, nor to the operations or malfunction of the facilities, power, or equipment provided by the Customer. A credit allowance will be made when an interruption occurs because of a failure of any component furnished and maintained by Company hereunder.

2.13.1 Credit for Interruptions

- (a) An interruption period begins when the Customer reports a service, facility or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility or circuit is operative. If the Customer reports a service, facility or circuit to be inoperable, but refuses to release it for testing and repair or does not provide the Company with access to the Customer's premises, it is considered impaired but not interrupted.

2.13.1 Credit for Interruptions *continued*

- (b) The Customer must obtain a trouble ticket by calling 1-866-654-4630 for transport services, or 1-866-654-4624 for switched services. The Company will issue a credit for service interruptions, if applicable, in accordance with this tariff. The duration of the interruption is determined solely by the date and time the trouble ticket was opened and closed out as a resolved issue. Credits will not be issued unless a trouble ticket exists for the facility, service or circuit in question. (T)
- (c) For calculating allowances, every month is considered to have 30 days. A credit allowance is applied on a pro-rata basis and is dependent upon the length of the interruption. Only those facilities or services on the interrupted portion of the circuit will receive a credit.
- (d) If two or more trouble tickets have been opened for a particular service in a 30-day period, and the cause of outage is determined to be in the Company's network or system equipment, such service will be deemed a Chronic Trouble Service. If a third trouble ticket is opened on a Chronic Trouble Service within thirty (30) days of the second trouble ticket, the Customer may disconnect the affected service without incurring termination liability. 2.19 Connection Charges

(M)

2.19.1 Description

The Connection Charge is a nonrecurring charge which applies to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or different location; or (d) restoral of service after suspension or termination for nonpayment. Connection charges are listed with each service to which they apply.

2.19.2 Exceptions to the Charge

- A. No charge applies for a change to a service for which a lower monthly rate applies, made within 90 days after any general rate increase, if a lower grade of service is offered in the Customer's exchange.
- B. No charge applies for one change in the class of residence service, provided that the change is ordered within 90 days of the initial connection of the customer's exchange service.
- C. The Company may from time to time waive or reduce the charge as part of a promotion.

SECTION 2 - GENERAL REGULATIONS *continued***2.20 Restoral Charge****2.20.1 Description**

A restoration charge applies to the restoration of service and facilities suspended because of nonpayment as provided by Section 2.7 of this tariff or for any other reason and is payable at the time the restoration of the suspended service and facilities is arranged. The Customer must satisfy its past due balance and correct the deficiency which gave rise to the suspension (if other than nonpayment) prior to the restoration of service. In addition, the Company may require the Customer to pay a deposit prior to the restoration of the suspended service and facilities.

SECTION 2 - GENERAL REGULATIONS *continued*2.21 Moves and Changes

(M)

2.21.1 Description

The Company alone may make changes in the location of its lines and equipment. When it is found that move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The Customer will be assessed a charge for any move, add or change of a Company service. Move and Change are defined as follows:

A "Move" is defined as a change in physical location of the Customer's premises or the point of termination at the Customer's premises. Charges are listed with each service to which they apply.

(T)

A "Change" is defined as a revision, redesign or other provisioning change to existing services. A minimum switch configuration charge of \$50.00 shall apply to each change of service.

2.25 Emergency / Crisis / Disaster Restoration and Provisioning Telecommunications Service Priority

2.25.1 General

- A. The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

SECTION 2 - GENERAL REGULATIONS *continued*

2.25 Emergency / Crisis / Disaster Restoration and Provisioning Telecommunications Service
Priority *continued*

2.25.1 General *continued*

B. The TSP program has two components, restoration and provisioning.

1. A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
2. A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

2.25 Emergency / Crisis / Disaster Restoration and Provisioning Telecommunications Service
Priority *continued*

2.25.2 TSP Request Process

A. Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

1. Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.

National Security Leadership
National Security Posture and U.S. Population Attack Warning
Public Health, Safety, and Maintenance of Law and Order
Public Welfare and Maintenance of National Economic Posture

2. Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.

Priority *continued*

2.25.2 TSP Request Process *continued*

A. Restoration *continued*

3. Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
4. For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
5. Submit the SF 315 to the OPT.
6. Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

SECTION 2 - GENERAL REGULATIONS *continued*2.25 Emergency / Crisis / Disaster Restoration and Provisioning Telecommunications Service
Priority *continued*2.25.2 TSP Request Process, *continued*

B. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2.25.2.A. above for restoration priority assignment except for the following differences. The user should:

Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2.25.2.A.1 above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.

Verify that the Company cannot meet the service due date without a TSP assignment.

Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

2.25.3 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

2.25.4 Responsibilities of the Company

The Company will perform the following:

- A. Provide TSP service only after receipt of a TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.
- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.

2.25.5 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

2.27 Automatic Number Identification

(N)

The Company will provide Automatic Number Identification (ANI) associated with an intrastate service by tariff to any entity (ANI recipient) only under the following terms and conditions:

- 2.27.1 The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction.
- 2.27.2 The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established customer relationship, a product or service that is directly related to products or service previously purchased by the telephone subscriber from the ANI recipient.
- 2.27.3 The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.
- 2.27.4 The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any other third party for any use other than those specified above, unless the ANI recipient obtains the Customer's prior written consent to such resale or disclosure.
- 2.27.5 Violation of any of the foregoing terms and conditions by any ANI recipient other than a Telephone Corporation shall result, after a determination through the Commission's complaint process, in suspension of the transmission of ANI by the Telephone Corporation until such time as the Commission receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Commission determines that there have been three or more separate violations in a 24 month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Commission.

2.28.3 GETS Features

A. Alternate Carrier Routing (ACR)

Company does not provide GETS ACR functionality.

B. Calling Party Number (CPN)

Company does not provide GETS CPN functionality.

C. High Probability of Completion (HPC)

1. GETS High Probability of Completion (HPC) provides GETS users with enhanced routing priority in the public switched network. HPS significantly improves the completion of GETS NS/EP calls under severe network congestion and damage conditions, including, but not limited to natural disasters and national emergencies.
2. The HPC feature sets the call priority value and provides the capability to queue the GETS NS/EP access call against a busy Switched Access trunk group in a route list until a member of that trunk group become idle. As soon as a trunk group member becomes idle, it is offered to the queued GETS NS/EP access call before any other calls are processed.

A one-time implementation charge per end office or access tandem switch (e.g., provisioning a switch to set RSVP).

RSVP Service Change Charge \$30.00

A one-time per switch charge for any request for RSVP service configuration changes, including changes to the numbers provisioned to set RSVP parameters. This charge is independent of the number of activities included in an individual switch change request.

SECTION 3

BASIC BUSINESS LINE SERVICE

3.1 General

Basic Business Line Service provides a business Customer with a connection to the Company's switched telecommunications network which enables the Customer to:

- receive calls from other stations on the public switched telecommunications network;
- access the Company's local calling service;
- access toll free telecommunications service such as 800 NPA;
- access emergency services by dialing 9-1-1;
- utilize Telecommunications Relay Service, as needed; and
- access the service of providers of intraLATA and interexchange service. A Customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive 800 service from such provider, or may access a provider on an ad hoc basis by dialing the provider's carrier identification code.

ORIGINAL

SECTION 3 - BASIC BUSINESS LINE SERVICE *continued*

3.1 General *continued*

Basic Business Line Service is provided via one or more channels terminated at the Customer's premises. Each Basic Business Line Service channel corresponds to one or more analog voice grade telephonic communications channels that can be used to place or receive one call at a time.

Connection charges apply to all service on a one-time basis unless waived pursuant to this tariff.

Calls to points within the local exchange area are charged on the basis of the length of completed calls originating from the Customer's service in addition to a base monthly charge.

To the extent facilities are available, services offered under this tariff are provided by the Company on an On-Net basis. Unless otherwise noted, prices for services offered under this tariff reflect the On-Net price for such services. Where service is provided on an Off-Net basis, additional charges may apply.

The Customer may select service features as described in Section 6 of this tariff. Features are available as permitted by facilities and equipment. Additional charges may apply.

Service is intended for end user applications with local usage not to exceed 200,000 minutes per month. Terms and conditions, rates and charges for applications exceeding 200,000 minutes of local usage per month will be determined on an individual case basis. If the Customer's actual usage exceeds 200,000 minutes of local usage per month, the Company may, upon 30 days written notice, recalculate and adjust the monthly recurring rates to be charged to the Customer. If the Customer does not accept the adjusted rates, it may, upon notice to the Company, terminate the Service. Termination liability charges may apply as specified elsewhere in this tariff.

3.2 Federal Subscriber Line Charge

Line, trunk and PRI services offered pursuant to this tariff are subject to the Federal Subscriber Line Charge as described in the Company's FCC Access Tariff Number 1. The Federal Subscriber Line Charge is a monthly recurring charge. There are no exemptions associated with the product charge. Federal Subscriber Line Charge rates are posted on the Company's website at www.twtelecom.com. Rates are subject to change. Further information regarding the Federal Subscriber Line Charge is available on the Federal Communication's website at www.fcc.gov.

3.4 Business Terminals

3.4.1 Description

A Business Terminal Service is generally used in a hunting arrangement or a multi-line hunt group. The group may have a main telephone number assigned to the first terminal in the group or they may have individual telephone numbers assigned to each terminal. Common applications include modem pools and large hunting applications for analog lines. Business Terminals have a physical appearance in the switch and are assigned to a unique channel. Business Terminals may or may not have a telephone number assigned to them. Additionally, Business Lines can have separate and unique features per line whereas Business Terminals may or may not take on characteristics of the group.

SECTION 4 - TRUNK LINE SERVICES

Trunk Line Services allows Customers to connect suitably equipped Customer premises switching equipment to the Company's central office switch for access to the public switched network.

The Customer must provide sufficient information regarding the intended use of the service to allow the Company to furnish and maintain the requested service, and to ensure that the use of the service complies with all tariff regulations.

Termination liability charges apply as specified Section 2.6 of this tariff.

To the extent facilities are available, services offered under this tariff are provided by the Company on an On-Net basis. Unless otherwise noted, prices for services offered under this tariff reflect the On-Net price for such services. Where service is provided on an Off-Net basis, additional charges may apply.

Service is intended for end user applications with local usage not to exceed 200,000 minutes per month. Terms and conditions, rates and charges for applications exceeding 200,000 minutes of local usage per month will be determined on an individual case basis. If the Customer's actual usage exceeds 200,000 minutes of local usage per month, the Company may, upon 30 days written notice, recalculate and adjust the monthly recurring rates to be charged to the Customer. If the Customer does not accept the adjusted rates, it may, upon notice to the Company, terminate the Service without incurring termination liability.

4.2 PBX Digital Trunk Service

4.2.1 Description

Digital PBX Trunk Service provides a Customer with connection to the Company switch via a DS1 digital fiber optic transmission facility operating at 1.544 Mbps. Digital PBX Trunks are provided for connection of Customer-provided PBX equipment or trunk capable key systems to the Company switch. Customers must have the ability to terminate a DS1 signal.

Each Digital PBX Trunk can be configured as an Inward, Outward or Two-Way Trunk. Inward and Two-Way Trunks may be equipped with Individual Telephone Numbers as set forth in Section 6.12 of this tariff. This enables a PBX to switch an incoming call directly to the intended extension number without the need for an attendant.

(T)
|
(T)

Digital PBX Trunk Service may be configured into a hunt group with other Company-provided Digital PBX Trunks.

The Company will consider requests for large quantities of trunks, i.e. 101 or more, on an individual case basis only.

The Customer may select service features as described in Section 6 of this tariff. Features are available as permitted by facilities and equipment. Additional charges may apply.

4.2 PBX Digital Trunk Service

4.2.1 Description

A. Federal Subscriber Line Charge

Line, trunk and PRI services offered pursuant to this tariff are subject to the Federal Subscriber Line Charge as described in the Company's FCC Access Tariff Number 1. The Federal Subscriber Line Charge is a monthly recurring charge. There are no exemptions associated with the product charge. Federal Subscriber Line Charge rates are posted on the Company's website at www.twtelecom.com. Rates are subject to change. Further information regarding the Federal Subscriber Line Charge is available on the Federal Communication's website at www.fcc.gov.

SECTION 5- INTEGRATED SERVICES DIGITAL NETWORK

5.1 Primary Rate ISDN (PRI) Service

5.1.1 Description of Service

- A. Primary Rate ISDN (PRI) Service Group allows the Customer to connect suitably equipped ISDN Customer Premises Equipment (CPE) to the Company's switching equipment using a Primary Rate Interface over a digital transport facility.

Each connection of 24-channel digital transport facility to the switch provides one PRI Group as set forth below. B (bearer) Channels may have a service type of Inward only, Outward only, or Two-way directionality. Individual Telephone Numbers may be associated with Inward and Two-Way service for additional charges as set forth in Section 6.12 of this tariff.

(T)
|
(T)

One or more PRI Groups can be combined to create a PRI Serving Arrangement. With each PRI Serving Arrangement, the Customer may subscribe to all Optional PRI Service Features listed below if available.

B. [Reserved for Future Use] (D)
(D)

C. Inbound Modem Pool Service (IMPS) Primary Rate ISDN (PRI) Groups allow qualified Internet Service Providers (ISPs) to connect suitably equipped ISDN Customer Premise Equipment (CPE) to the Company's switching equipment using a Primary Rate Interface over a digital transport facility for inbound traffic only. (T)

Each connection of a 24-channel digital transport facility to the Company's switch provides one Primary Rate Interface or group as set forth below. B channels may have a service type of inward only directionality. Individual Telephone Numbers may be associated with IMPS applications for additional charges as specified in Section 6.12 of this tariff. One or more IMPS PRI groups can be combined to create an IMPS PRI serving arrangement. (T)
|
(T)

For certified ISPs, high capacity PRIs are available on an individual case basis.

SECTION 5 - INTEGRATED SERVICES DIGITAL NETWORK

5.1 Primary Rate ISDN (PRI) Service. (cont'd)

(D,M,T)

5.1.2 Availability

PRI Service is available only from suitably equipped central offices and is dependent upon facility availability as determined by the Company.

5.1.3 Minimum Protection Criteria

Minimum protection criteria are not specified for PRI Service because protection is inherent in the normal provisioning of service. However, the Company reserves the right to specify such criteria at a later date if appropriate.

5.1.4 Use of Service

- A. The Customer must provide sufficient information regarding the intended use of the service to allow the Company to furnish and maintain the requested service and to ensure that the use of the service complies with all tariff regulations.
- B. The Company shall not be responsible for the manner in which the use of the service will be allocated. Service requests that involve the establishment, rearrangement, release, or discontinuance of service will be accepted by the Company only from the Customer.
- C. The service furnished under this schedule shall not be used for any purpose or in any manner directly or indirectly in violation of the law or in aid of any unlawful act or undertaking.

SECTION 5 - INTEGRATED SERVICES DIGITAL NETWORK, (cont'd)

5.1 Primary Rate ISDN (PRI) Service, (cont'd)

(D,M,T)

5.1.5 Limitations

- A. PRI is available only where facilities, equipment and operating conditions permit. The Customer is responsible for providing compatible ISDN equipment and determining compatibility of each regular and optional feature associated with its application and equipment.
- B. A PRI Service Arrangement must be configured so as to avoid disruption of call completion in the PRI serving central office. The Company has the right upon notice to the Customers, to change arrangements to protect network integrity.
- C. Individual B channels can transmit and receive voice and/or data calls up to 64 Kbps within a PRI Serving Arrangement. Calls placed to or from outside the PRI Serving Arrangement, or over the public switched network where SS7 signaling and/or 64Kbps Clear Channel capabilities are not deployed will be limited to 56 Kbps throughput.
- D. All Customer provided equipment used to interface with PRI is required to conform with the Technical Reference Specifications as used by the Company and found in the switch vendors Technical References and subsequent revisions.

Material previously found in this Section has been deleted.

SECTION 5 - INTEGRATED SERVICES DIGITAL NETWORK *continued*

5.1 Primary Rate ISDN (PRI) Service *continued*

5.1.5 *Limitations continued*

E. The Company reserves the right, in its sole discretion, and upon fifteen (15) days notice to the Customer, to discontinue provision, or increase or decrease the price of any PRI Service in the event the regulatory conditions affecting the Company's provision of PRI Service change after the Service date of the Customer. In the event the Customer does not accept the Company's rate change, the Customer may discontinue the affected PRI Service without penalty, upon fifteen (15) days written notice to the Company.

F. Service is intended for end user applications with local usage not to exceed 200,000 minutes per month. Terms and conditions, rates and charges for applications exceeding 200,000 minutes of local usage per month will be determined on an individual case basis. If the Customer's actual usage exceeds 200,000 minutes of local usage per month, the Company may, upon 30 days written notice, recalculate and adjust the monthly recurring rates to be charged to the Customer. If the Customer does not accept the adjusted rates, it may, upon notice to the Company, terminate the Service without incurring termination liability.

|
|
|
|
|
|
|
|
|
(N)

5.1.6 *Connections*

A. All PRI connections shall be made through equipment furnished by the Customer. The responsibility of the Company shall be limited to the furnishing of service up to and including the network demarcation point on the Customer's premises. The connection of Customer-provided equipment shall be on a Company-provided standard interface or its equivalent.

B. The Customer is responsible for testing its equipment or facilities to ensure that when connected to the Company's PRI Service, such equipment or facilities are operating properly and, further, that the cause of any service difficulty reported by the Customer to the Company results from the operation of equipment or facilities provided by the Company.

5.1 Primary Rate ISDN (PRI) Service. (cont'd)

(D,M,T)

5.1.7 PRI Group Descriptions

- A. There are three types of PRI Group services: Group 1, Group 2 and Group 3 as set forth below. Subject to technical limitations and operating conditions, the Company will specify how many PRI Groups can be supported by a single primary D (delta/signaling) channel.
- B. Where facilities and operating conditions permit, up to 20 PRI Groups may be combined into a single PRI Serving Arrangement and may be controlled by a single D channel.
- C. Where facilities and operating conditions permit, the Company may provide alternate facility routing through separate D channels of a PRI Service.

SECTION 5 - INTEGRATED SERVICES DIGITAL NETWORK. (cont'd)

5.1 Primary Rate ISDN (PRI) Service. (cont'd)

(D,M,T)

5.1.8 Types of PRI Group Services

A. Group 1

Provide twenty-three (23) 64 Kbps B (bearer) Channels and one (1) primary 64 Kbps D (delta/signaling) channel. The B channels carry digitized Customer traffic (voice and or data). The primary D channel is an out of band signaling channel used to control and route all of the B channel traffic of a single PRI serving Arrangement. The Original group of every PRI Serving Arrangements must be Group 1.

B. Group 2

Provides an additional twenty-three (23) 64 Kbps B (bearer) Channels and one (1) backup 64 Kbps D (delta/signaling) channel. The B channels carry digitized Customer traffic (voice and/or data). The backup D channel will control and route all of the B channel traffic of a single PRI Serving Arrangement should be the primary D channel go out of service. This group is only available in conjunction with a Group 1, and only one Group 2 may be included with each PRI Serving Arrangement. The Group 2 may be any PRI Group between the second and the twentieth PRI Group in a PRI Serving Arrangement.

The Company neither expressly nor implicitly recommends nor requires that a Customer subscribe to a Group 2, regardless of the number of PRI Groups in a single PRI Serving Arrangement.

SECTION 6

SUPPLEMENTAL SERVICES

6.1 Business Features

(N)(M)

6.1.1 General

The features in this section are made available on an individual basis. All features are provided subject to availability. Features may not be available with all classes of service.

6.1.2 Description of Features

A. Three-Way Calling

The Three-Way Calling feature allows a Customer to add a third party to an existing two-way call and form a three-way call. The call must have been originated from outside the station group and terminate to a station within the station group. The Call Hold feature allows a Customer to put any in-progress call on hold by flashing the switchhook and dialing a code. This frees the line to allow the Customer to make an outgoing call to another number. Only one call per line can be on hold at a time. The third party cannot be added to the original call.

(N)(M)

Material now found on this page is new.

Material previously found on this page is now located in Section 8.

SECTION 6 - SUPPLEMENTAL SERVICES

6.1 Business Features

6.1.2 Description of Features

B. Call Forwarding

Call forwarding, when activated, redirects attempted terminating calls to another Customer-specific line. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding is billed for the Call Forwarding is billed for the forwarded leg of the call.

Call Forwarding – Busy automatically reroutes an incoming call to a Customer pre-designated number when the called number is busy.

Call Forwarding – Don't Answer automatically reroutes an incoming call to a Customer pre-designated number when the called number does not answer within the number of rings programmed by the Company.

Call Forwarding – Variable allows the Customer to choose to reroute incoming calls to another specified telephone number. The Customer must activate and deactivate this feature.

SUPPLEMENTAL SERVICES, (cont'd)6.1 Business Features, (cont'd)

(N)

6.1.2 Description of Features, (cont'd)

C. Call Waiting

Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the Customer to place the original call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) Customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the Customer disconnects from the call.

D. Speed Calling

This feature allows a user to dial selected numbers using one or two digits. Up to eight numbers (single digit, or thirty numbers with two digits) can be selected).

SUPPLEMENTAL SERVICES, (cont'd)

6.1 Business Features, (cont'd)

(N)

6.1.2 Description of Features, (cont'd)

E. Call Transfer

Call Transfer allows a Customer to receive an incoming call, then transfer the calling party to any other number.

F. Caller ID with Number Delivery

The caller ID feature allows a Customer to see a caller's number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the number, date and time of each incoming call – including calls that aren't answered by the Customer. Caller ID service requires the use of specialized Customer Premises Equipment not provided by the Company. It is the responsibility of the Customer to provide the necessary CPE.

G. Last Call Return

Last Call Return stores the number of the most recent incoming call (including unanswered incoming calls) to a Customer's number. This allows a Customer to dial back any missed or unanswered telephone calls. If the number dialed back is busy, Last Call Return continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free, the call is automatically redialed and the Customer is notified of the connected call via a distinctive ring.

6.2 Blocking Service

6.2.1 General

Blocking Service is a feature that permits Customers to restrict access from their telephone line to various discretionary services. The following blocking options are available. One, all or any combination may be selected.

- A. Call Blocking: 900, 971, 974, 976 and 700 NPA Blocking – allows the subscriber to block all calls beginning with the NPA of 900, 971, 974, 976 and 700 (i.e. 900-XXX-XXXX) from being placed.
- B. Toll Restriction: Toll Restriction (1+ and 0+ Blocking) provides the Customer a method of denying access to some or all of the toll network and operator services. Toll Restriction will not block the following types of calls: 911 (Emergency) and 1 + 800 (Toll Free) calls.

6.3.1 General

The following rules apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records.

Only information necessary to identify the Customer is included in these listings. Abbreviations may be used in listings. A listing may be rejected if it is judged to be advertising. It may also reject a listing it judges to be objectionable. A name made up by adding a term such as Company, Shop, Agency, Works, etc. to the name of a commodity or service will not be accepted as a listing unless the Customer is legally doing business under that name.

A name may be repeated in the white pages only when only when a different address or telephone number is used.

6.3.2 Composition of Listings

A. Name

1. Business Service

The following names may be included in business service listings:

- a. The name of Customer or joint user.
- b. The name of each business enterprise which the Customer or joint user conducts.
- c. The name by which the business of a Customer or joint user is known to the public. Only one such name representing the same general line of business will be accepted.

A. Name, (cont'd)

1. Business Service, (cont'd)

- d. The name of any person associated with the Customer or joint user in the same business.
- e. The name of any person, firm or organization which Customer or joint user is authorized to represent, or the name of an authorized representative of the Customer or joint user.
- f. Alternative spelling of an individual name or alternative arrangement of a business name, provided the listing, in the judgment of the Company, is not for advertising purposes.
- g. The name of a publication issued periodically by the Customer or joint user.
- h. The name of an inactive business organization in a cross-reference listing when authorized by such business or organization.
- i. The name of a member of Customer's domestic establishment when business service is furnished in the Customer's residence.
- j. The name of a corporation which is the parent or a subsidiary of the Customer.

(N)

6.3.2 Composition of Listings, (cont'd)

A. Name, (cont'd)

2. Business Service, (cont'd)

- k. The name of a resident of a hotel, apartment house, boarding house or club which is furnished PBX service, may be included in a residence type listing with the telephone number of the PBX service.
- 1. The name of the Customer to a sharing arrangement.

B. Designation

The purpose of a business designation is to identify the listed party and not to advertise the business. No designation of the nature of the business is included if this is sufficiently indicated by the name. Where a listed party is engaged in more than one general line of business, one additional business designation may be included in the listing when necessary to identify the listed party. When a listed party has two or more listed telephone numbers or two or more business addresses, designations indicating the branches of the organization may be included where necessary to assist the public in calling.

A designation may include a title to indicate a listed party's official position, but not the name of the firm or corporation with which the individual is connected. Individual names or titles are not shown following the name of a firm or corporation.

SUPPLEMENTAL SERVICES. (cont'd)6.3 Listings, (cont'd)

(N)

6.3.2 Composition of Listings, (cont'd)

B. Designation, (cont'd)

A term such as "renting agent" may be included in a listing indented under the name of a building, provided the agent maintains a renting office in such a building.

A designation is not ordinarily provided in a residence type listing except for residential service as permitted under the terms of this tariff. A professional designation is permitted on residence service in the case of a physician, surgeon, dentist, osteopath, chiropodist, podiatrist, optometrist, chiropractor, physiotherapist, Christian Science practitioner, veterinary surgeon, registered nurse or licensed practical nurse, provided that the same name and designation is also listed on business service of that Customer or another Customer in the same or different directory.

The listing of service in the residence of a clergyman may include the designation "parsonage," "rectory," "parish house," or "manse," and any such listing may be indented under a listing in the name of the church. Where residence service is furnished in a church study, the listing may include the designation "study."

C. Address

Each residence or non-profit listing may, but does not have to, include the house number and street name of the residence where the telephone service is provided. Other information, such as a building name or a locality designation, may be included to help identify the customer.

(N)

SUPPLEMENTAL SERVICES, (cont'd)

6.3 Listings, (cont'd)

6.3.2 Composition of Listings, (cont'd)

(N)

D. Telephone Number

Each listing may include only one telephone number, except in an alternate telephone number listing where each number listed is considered a line for rate purposes.

A listing may include only the telephone number of the Original line of a PBX system or incoming service group, except that a trunk not included in the incoming service group of a PBX system, or the Original trunk of a separate incoming service group of a PBX system may be listed to meet special conditions where a corporation and its subsidiaries use the same PBX system.

6.3.3 Types of Listings

A. Main Listing

1. Main Standard Listing

A main standard listing includes a name, designation, address and telephone number of the Customer. It appears in the White Pages of the telephone directory. The designation in the listing will be provided according to the rules in paragraph 4.8.2 above.

(N)

SUPPLEMENTAL SERVICES. (cont'd)6.3 Listings, (cont'd)

6.3.3 Types of Listings, (cont'd)

B. Premium Listings

1. Additional Listing

Customers may arrange for additional listings, similar to the primary listing, at the additional listing rate. Listings may include abbreviated names, names which are commonly spelled several ways, rearrangements of names and nicknames by which the Customer is commonly known. All names will be included in their proper alphabetical order. If the above additional listing does not readily identify the Customer, it shall be necessary to include a line of information stating "same as" or "see" and a reference to the name contained in the main listing for an additional charge. Listings will not be accepted for the purpose of securing preferential publicity or position.

2. Secondary Listing

Any listing may be duplicated in a different directory or under a separate geographical heading in the same directory. Such listing may be duplicated in indented form.

3. Extra Listing Lines

Lines of information acceptable to the Company may be arranged for at the rate shown in the schedule to appear in addition to a main listing for the purpose of facilitating use of the service.

4. Alternate Call Listings

Any listed party who has made the necessary arrangements for receiving telephone calls during his or her absence may have an alternate telephone number listing or a night listing. Such listing may be furnished as an indented listing or as a sub-caption.

The telephone number in such a listing may be that of another service furnished to the same Customer, or of one of the Customer's PBX trunks not included in the incoming service group, or of a service furnished to a different Customer.

6.4 Non-Published Service

6.4.1 General

Non-published service means that the Customer's telephone number is not listed in the directory, nor does it appear in the Company's Directory Assistance Records.

6.4.2 Regulations

- A. This service is subject to the rules and regulations for E911 service, where applicable.
- B. The Company will complete calls to a non-published number only when the caller dials direct or gives the operator number. No exceptions will be made, even if the caller says it is an emergency.
- C. When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.
- D. The Customer indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

SECTION 6 - SUPPLEMENTAL SERVICES *continued*

6.11 Business Expansion Service

(N)

- 6.11.1 Business Expansion Service (BES) allows Customers to receive inbound calls from rate center(s) different from the Customer's physical location. This service is available at the trunk group level and is designated to be used on new or existing local switched facilities.

BES can only be provided from rate centers (1) where the Company offers switched services and (2) where the Company determines there are sufficient facilities and equipment to allow the Customer's traffic to be terminated to the BES NXX.

BES is an inbound-only service.

The Company does not guarantee the completion of calls to the BES telephone number from exchanges other than the exchange with which the telephone number is associated, even though End Users in the other exchanges may have local calling plans that include calls to End Users physically located in the exchange with which the BES telephone number is associated.

6.11.2 Rates and Charges

BES Charges are in addition to any applicable facilities charges.

Monthly Recurring Charge per BES rate center: \$525.00

Nonrecurring Charge per BES rate center \$ 0.00

6.13 Disaster Routing Service

(N)

Disaster Routing Service reroutes incoming calls to a predetermined alternate telephone number. Disaster Routing is available for Trunk and/or ISDN PRI service.

Disaster Routing Service reroutes incoming calls to a different location when the primary location experiences an out-of-service condition such as a result of power outage or a wire cut that isolates the primary location from the Central Office.

The Customer may establish one call path or multiple call paths, with a maximum of 99 call paths per telephone number. The number of call paths determines how many simultaneous calls will be rerouted. The number of call paths elected may not exceed the number of trunks and/or channels associated with the trunk group and should be sized correctly based on the trunks and/or channels of the terminating location. Features may not work in conjunction with this service.

The Company's liability with respect to a claim or suit by a Customer, or any third party, for damages associated with Disaster Routing, including but not limited to the installation, provision, performance or non-performance of Disaster Routing shall not exceed an amount equal to the proportionate charge for Disaster Routing for the period during which the service was affected.

6.14 Emergency Reroute Service

(N)

6.14.1 Description of Service

Emergency Reroute Service provides for the rerouting of incoming calls to an alternate number designated by the Customer. Emergency Reroute Service is for situations where the Customer requires incoming calls to be rerouted immediately, and on a temporary basis. Emergency Reroute Service is available on a limited basis for Line, Trunk and ISDN PRI Services.

The Company is entitled to rely upon instructions given by the telephone from a person representing himself or her self to be an authorized representative of the of the Customer without further verification so long as the Company has no reason to believe that such person lacks proper authority.

The Company's liability with respect to a claim or suit by a Customer, or any third party, for damages associated with Emergency Reroute Service, including, but not limited to the installation, provision, performance or non-performance of Emergency Reroute Service, shall not exceed an amount equal to the proportionate charge for the Emergency Reroute Service for the period during which the service was affected.

6.14.2 Maximum Rates and Charges

	<u>Per Reroute Occurrence</u>
Nonrecurring Charge	\$750.00

6.15 Busy Verification and Interrupt Service

(N)

6.15.1 Description of Service

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

A Verification Charge will apply when the operator verifies that the line is busy with a call in progress, or the operator verifies that the line is available for incoming calls.

Both a Verification Charge and an Interrupt Charge will apply when the operator verifies that a called number is busy with a call in progress and the Customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.

No charge will apply when the calling party advises that the call is from an official public emergency agency.

6.15.2 Maximum Rates and Charges

Verification Charge, each request	\$4.50
Interrupt Charge, each request	\$9.50

SECTION 7
911 SERVICES

7.1 Description

The Company provides 911 Service in compliance with and under the Terms and Conditions of the Enhanced 911 Act, Section 63-9D-1 et. seq., in effect, and as amended from time to time.

911 Service is a communication service whereby one or more Public Safety Answering Points (PSAPs) designated by the 911 customer may receive telephone calls dialed to the telephone number 9 11. 9 11 Service includes network facilities necessary for the answering, transferring, and forced disconnect of emergency 9 11 calls originated by persons within the serving area.

7.2 Definitions

Automatic Location Identification (ALI) - A feature by which the name and address associated with the calling party's telephone number (identified by ANI feature) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premises, etc.) will be identified with the address of the telephone number at the main location.

Automatic Location Identification/Data Management System (ALI/DMS) - A computer data base used to create, store and update the data (e.g., Emergency Service Numbers, addresses, customer names, etc.) required to provide the Selective routing and ALI features.

Automatic Number Identification (ANI) - A feature by which the calling party's telephone number is forwarded to the 911 customer's premises equipment for display.

Diverse Routing - A method of deploying and office facilities using separate systems to provide 911 Service in case of facility or central office equipment failure.

Emergency Service Central Office (ESCO) Code - A code that identifies the originating End Office of a 911 call.

Issued: December 15, 2000 Effective: December 15, 2000

911 SERVICES

7.2 Definitions (Cont'd)

9 11 Control Office/Tandem - A central office which provides tandem switching of 9 11 calls. It controls switching of ANI information to the PSAP and also provides the Selective Routing feature and certain maintenance functions for each PSAP.

9 11 Service Area - The geographic area in which the 911 customer will answer all 9 11 calls and transfer, relay or dispatch appropriate emergency assistance.

9 11 Customer - The 9 11 customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to emergency calls.

9 11 Transport - Utilization of dedicated point-to-point circuits between an End Office or a Private Branch Exchange (PBX) and a 911 Control Office, a Control Office and a Public Safety Answering Point (PSAP) and/or a PSAP and a Node. 911 Transport is only to be used to transmit a telephone number (Automatic Number Identification Transport), a name and address (Automatic Location Identification Transport) or routing information (Selective Routing Transport) associated with a 911 call.

P .01 Grade of Service - Trunk facility provisioning to ensure that during the average busy hour, no more than 1% of calls into the 911 system will encounter a busy condition.

Private Branch Exchange (PBX) Station - A telephone with a unique identifying number which is connected internally and directly to PBX.

Private Switch/Automatic Location Identification (PS/ALI) - PS/ALI means a service that enables either (1) automatic number identification or (2) automatic number identification and automatic location identification to be provided to a public safety answering point by 911 calls originating from station lines served by a private switch system that are directly accessible to and from the public switched network.

Senior Manager - Regulatory
10475 Park Meadows Drive
Littleton, Colorado 80124

911 SERVICES

7.3 Conditions

Reverse Search of the Automatic Location Identification (ALI) Data Base - A query of the ALI data base initiated at the PSAP to electronically obtain the ALI data associated with a known telephone for purposes of handling an emergency call when that telephone is not directly connected to the PSAP.

7.3.1 This service is limited to the use of 911 as the universal emergency telephone number.

7.3.2 9 11 Service is furnished to the 9 11 customer only for the purpose of receiving reports of a public safety nature from the public.

7.3.3 911 Service is arranged for one-way incoming service to the appropriate PSAP. Outgoing calls can only be made on a transfer basis.

7.3.4 The Company does not answer and forward 911 calls, but furnishes the use of its facilities to enable the 911 customer's personnel to respond to such calls.

7.3.5 Reverse Search

- (A) A PSAP may make a reverse search of information in the Automatic Location Identification (ALI/DMS) database when, in the judgement of the representative of the PSAP, an immediate response to the location of the caller or to the location of another telephone number reported by the caller is necessary because of an apparent emergency.
- (B) A record shall be created by the telecommunications Local Exchange Company (LEC) or in the database that is searched at the time of the reverse search showing the date and time, the number searched, the PSAP, and, if feasible, the PSAP agent position from which the reverse search is initiated.

SECTION 7 - 911 SERVICES *continued*

7.3.5 Reverse Search *continued*

- 7.3.7 911 information consisting of the names, addresses, and telephone numbers of Company Customers whose listings are not published in directories or listed in directory assistance offices is confidential. Should a 911 Customer not take the necessary steps to protect this confidential information, the Company has the right to restrict access to such confidential Customer information.

SECTION 7 - 911 SERVICES continued

7.3 Conditions continued

(M)

7.3.8 The 911 calling party forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, address, and name associated with the calling party's location may be furnished in connection with a call to 911.

7.3.9 Default Routing and End Office identification in the form of an Emergency Service Central Office (ESCO) code will be provided in lieu of Selective Routing and Automatic Number Identification (ANI) for 911 systems served from central offices not equipped to transmit ANI. Default Routing tables will be mutually negotiated between the Customers and the Company.

7.3 Conditions (Cont'd)

7.3.16 The Selective routing feature is provided, the following conditions define the Company's responsibilities for file management:

- A. Coordinate with the 911 Customer and other telephone companies (that are part of Company-provided system) to establish specific implementation schedules and roles for successful installation. (T)
- B. Each telephone Company will receive one copy of the Master Street Address Guide (MSAG) file in the medium of their choice on a quarterly basis. (T)
- C. The timing of any Company initiated MSAG changes impacting the 911 Customer or other telephone companies will be negotiated prior to implementation. (T)

7.3.17 When the Automatic Location Identification (ALI) feature is provided, the following conditions define the Company's responsibilities for data base management: (T)

- A. Coordinate the building and maintenance of the subscriber record (ALI) data base. (T)
- B. When receiving data from other telephone companies, supply technical support for data transmission problems. (T)
- C. Establish and implement with the 911 Customer the process for ongoing Automatic Number Identification/Automatic Location Identification (ANI/ALI) inquiries. Any ANI/ALI inquiries will be resolved within five business days of receipt. (T)

911 SERVICES

7.3 Conditions (Cont'd)

7.3.17 (Cont'd)

- D. Provide other telephone companies a copy of their own subscriber records (ALI) data base file once a year for verification. Copies provided by The Company to other telephone Company's may only be used for 911 services. (T)
- E. The Company will staff the data base operations with trained data base personnel until 5:00 p.m. local time each business day. (T)
- F. Service order updates will be reflected in the 911 computers within one business day of posting an order completion to the Company's master Customer records data base. (T)

7.3.18 The Company shall not be required to provide 911 Service to less than an entire Central Office Serving Area.

7.3.19 The rates charged for 911 Transport Service include normal Public Switched Telephone network monitoring of facilities to discover errors, defects, and malfunctions in the network, but do not include any additional monitoring. If available, at the request of the 911 Customer, the Company will provide additional inspection and monitoring of facilities for an additional charge. The 911 Customer and the Company shall promptly notify each other in the event the system is not functioning properly.

7.3.20 All 911 Customers must purchase facilities to maintain a minimum of P.01 Grade of Service. In all situations, a minimum of two circuits will be required to connect each End Office in the 911 system to the 911 Control Office and/or to the Public Safety Answering Point (PSAP) Serving Central Office.

7.3 Conditions (Cont'd)

- 7.3.21 Where Company facilities permit, the 911 Customer can request route diversification and redundancy of any or all interoffice and/or local facility routes. Additional charges for any new construction and provisioning to provide route diversity at the Customer's request will be the responsibility of the 911 Customer and will be assessed on an individual case basis.
- 7.3.22 911 Service is offered subject to availability of facilities.
- 7.3.23 The Company will provide one type of 911 service per central office, either basic or enhanced, but not both.
- 7.3.24 In a Private Switch Automatic Location Identification Service (PS/ALI) application the Private Branch Exchange owner/operator must meet the following requirements: (T)
- A. The PS/ALI Customer must indicate in writing that the 911 customer has been contacted and has agreed to any potential changes in calling patterns or volumes resulting from the implementation of PS/ALI. (T)
 - B. The PS/ALI Customer shall provide a single point of contact to both the Company and the 911 Customer through who will be authorized to address issues of Emergency Service Number assignment or modifications to the Master Street Address Guide made necessary by the PS/ALI Customer's implementation. (T)
 - C. Provide full seven-digit Automatic Number Identification (ANI) stations within the PBX. Identification may be for a station nearby the caller's phone to which a return call may be made from the public switched network. (T)

SECTION 8 - TOLL SERVICES

8.1 InterLATA Toll Services

8.1.1 InterLATA Service

(T)

A. Description

InterLATA Service is available to Customers over the Company's switched or switchless access lines. Service is available only in conjunction with the Customer's subscription to the Company's local exchange services. For Customers subscribing to the Company's local exchange services, service is available on a Switchless basis or provisioned on a Dedicated Long Distance facility. If the Customer discontinues services with the Company such that the only remaining service is Switchless and/or Dedicated Long Distance Services, the Company reserves the right to discontinue the Switchless and/or Dedicated Long Distance Services upon providing the Customer a 30-day advance notice of disconnection. The Company may waive the Local Exchange Service requirement for Dedicated Long Distance facility on an individual case basis.

(T)
(N)

This Service is available to Customers that subscribe to the Company's local exchange services in a minimum of one location. Customers that meet the minimum requirement may also purchase services at locations where they do not subscribe to the Company's local exchange services and/or subscribe to a dedicated on-net direct dial service over the Company's carrier's digital network utilizing a DS-1 connection between the Company's switch and the carrier's nearest hub. All off-net services will be handled on a contractual basis only.

B. Timing of Calls

Long distance usage charges are based on actual usage. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection. If the called station hangs up, but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the network. Chargeable time does not include time lost because of faults or defects in the connection.

The minimum call duration and rounding of calls for measurement and billing purposes is six (6) seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Fractional cents will be rounded to the next higher cent.

(T)

C. Terms of Service

The rates for InterLATA Service are based on volume and established one (1) year, two (2) year, or three (3) year term contracts for the Company's business Customers. The rates are further segregated between switched and switchless type service. Switchless service may be offered in a package with other services or by itself at a rate or discount offered on a contractual basis. Rates will be offered to the Customer in writing and on a non-discriminatory basis. Contracts resulting from a special request will be submitted for approval and filed with the Commission. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one (1) year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

(T)

Note: Off-net provisioning will require additional mileage and/or back haul charges to be added.

8.1.2 Calling Card Service

(T)

A. Description

Calling Card Service is provided to Customers for use when away from their established locations. The Company will issue to Customers Company Calling Cards which will allow Customers to place telephone calls and to re-originate calls, a feature which allows a Customer to place a new call without hanging-up and re-dialing the 8XX access number. Access to the service is gained by dialing a Company-designated toll free access number (i.e., 8XX-NXX-XXXX) and then entering a Company-provided personal identification number (PIN) and the called telephone number, including the area code.

(T)

The Company, by written notice to the Customer, may discontinue service to a Company Calling Card PIN if that PIN has not been used for a period of 120 days.

B. Call Timing

Calling Card Service is usage sensitive and billed in six (6) second increments following a minimum initial billing period of eighteen (18) seconds. The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additional fractional cents will be rounded off to the nearest higher cent. Unless otherwise specified in this Tariff, the duration of each call for bill purposes will be rounded off to the nearest higher increment.

SECTION 8 - TOLL SERVICES *continued*

8.1 InterLATA Toll Services *continued*

8.1.2 Calling Card Service *continued*

(T)

C. Terms of Service

The rates for Calling Card Service are based on established one (1) year, two (2) year, or three (3) year term contracts for the Company's business Customers. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one (1) year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

(T)

D. Liability for Calling Card Fraud

The Customer is liable for the unauthorized use of the Company's service obtained through the fraudulent use of a Company calling card, provided that the unauthorized use occurs before the Company has been notified.

The Customer's liability for unauthorized use shall not exceed the lesser of \$50.00 or the amount of services obtained by unauthorized use prior to notification to the Company. Notwithstanding the foregoing, in situations where the Company issues 10 or more calling cards to Customer for use by its employees, the company and the Customer may agree on the Customer's liability for unauthorized use on a case by case basis without regard to this subsection.

8.1.3 8XX (Toll Free) Service

(T)

A. Description

8XX (Toll Free) Service is usage rated and billed in six (6) second increments. Call charges are billed to the Customer and not to the party originating the call.

(T)

B. Call Timing

The duration of each call will be rounded off to the nearest higher increment for billing purposes. Additional fractional cents will be rounded off to the nearest higher cent, unless specified otherwise in this Tariff.

C. Terms of Service

The rates for 8XX (Toll Free) Service are based on volume and established one (1) year, two (2) year, or three (3) year contracts for the Company's business Customers. Upon expiration of a term contract, the service term will automatically renew at the same terms and conditions for successive one (1) year terms unless either party notifies the other thirty (30) days prior to the expiration of the then current term that it wishes to terminate the service.

SECTION 8 - TOLL SERVICES *continued*

8.2 IntraLATA Toll Service

8.2.1 General

A. Description

IntraLATA toll service is furnished for telephone communication between telephones in different local calling areas but within the same LATA in accordance with the regulations and schedules of charges specified in this Tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

IntraLATA toll calling includes the following types of calls: direct dialed, calling card, collect, third number billed, special toll billing, requests to notify of time and charges, person to person calling and other station to station calls.

B. Classes of Calls

Service is offered as two classes: station-to-station calling and person to person calling.

1. Station to Station Service is that service where the person originating the call dials the telephone number desired or gives the an operator the telephone number of the desired telephone station or system.

SECTION 8 - TOLL SERVICES *continued*

8.2 IntraLATA Toll Service *continued*

8.2.1 General *continued*

B. Classes of Calls *continued*

2. Person to Person Service is that service where the person originating the call specifies to an operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person to person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.

C. TIGR Calling Card Service

TIGR Calling Card Service is provided to Customers for use when away from their established locations at the terms and rates described in Section 8.1.2.

(N)

(N)

SECTION 8 - TOLL SERVICES *continued*

8.2 IntraLATA Toll Service *continued*

8.2.2 Timing of Calls

- A. Unless otherwise indicated, all calls are timed in six (6) second increments.
- B. For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- C. For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- D. Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- E. Calls originating in one time period as defined in this Section and terminating in another will be billed the rates in effect at the beginning of each minute.

SECTION 9 - SPECIAL ARRANGEMENTS

9.1 Individual Case Basis (ICB) Arrangements

Arrangements will be developed on a case-by-case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified for such services in this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis. Upon notice to Customer, the Company may change rates offered pursuant to special arrangement or individual case basis pricing if the provision of service at such rate(s) becomes economically infeasible.

(N)
|
(N)

9.2 Special Customer Arrangements

In cases where a Customer requests special arrangements which may include engineering, installation, construction, facilities, assembly, purchase or lease of facilities and/or other special services not offered under this tariff, the Company may, at its option, provide the requested service under contract. Upon notice to Customer, the Company may change rates offered pursuant to special arrangement or individual case basis pricing if the provision of service at such rate(s) becomes economically infeasible.

SPECIAL ARRANGEMENTS. (cont'd)

9.3 Service and Promotional Trials

(N)(D)

9.3.1 General

The Company may establish temporary promotional programs wherein it may waive or reduce nonrecurring or recurring charges, to introduce a present or potential Customer to a service not previously subscribed to by the Customer.

9.3.2 Regulations

- A. Appropriate notification of the Trial will be made to all eligible Customers and to the Commission. Appropriate notification may include direct mail, bill inserts, broadcast or print media, direct contact or other comparable means of notification.
- B. During a Service Trial, the service(s) is provided automatically to all eligible Customers, except to those Customers who choose not to participate. Customers will be offered the opportunity to decline the trial service both in advance and during the trial. A Customer can request that the designated service be removed at any time during the trial and not be billed a recurring charge for the period that the feature was in place. At the end of the trial, Customers that do not contact the Company to indicate they wish to retain the service will be disconnected from the service at no charge.
- C. During a Promotional Trial, the service is provided to all eligible Customers who ask to participate. Customers will be notified in advance of the opportunity to receive the service in the trial for free. A Customer can request that the service be removed at any time during the trial and not be billed a recurring charge for the period that the service was in place. At the end of the trial, Customers that do not contact the Company will be disconnected from the service.
- D. Customers can subscribe to any service listed as part of a Promotional Trial and not be billed the normal Connection Charge. The offering of this trial period option is limited in that a service may be tried only once per Customer, per premises.

SPECIAL ARRANGEMENTS *continued*

9.3 Service and Promotional Trials *continued*

9.3.2 Regulations

- E. The Company retains the right to limit the size and scope of a Promotional Trial.

9.4 Negotiated Rates and Competitive Discounts

Customized service packages at Negotiated Rates or Competitive Discounts may be furnished on a case-by-case basis in response to request by Customers of the Company for proposals or for competitive bids. Service offered under this tariff provision will be provided to Customers pursuant to contract.

Competitive Discounts are available to Customers purchasing services with a contract period of 24 months or greater. Competitive Discounts shall not exceed 20%.

(T)

Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of this tariff. Specialized rates for charges will be made available to similarly-situated Customers on a nondiscriminatory basis. The Company will consider the following factors when establishing special pricing arrangements: (1) the LATA in which the Customer is located; (2) the horizontal and vertical distance from the central office to the Customer's premises; (3) the availability and location of network facilities; (4) the type of service; (5) the price of service; (6) the number of lines (circuits) being used; and (7) the length of the contract terms.

10.1 Best Choice Promotion

One of the following two promotional options is available to new and existing Customers through March 30, 2002.

1. Customers who order VersiPak or Integrated Business Line Service and enter into a 24 month term agreement prior to March 30, 2002 will receive the service at the 36-month term rate.

Or

2. Customers who order Digital Trunk Service, ISDN PRI Two-Way Service or Basic Business Line Service prior to March 30, 2002 will receive the following discounted rate:

- Sign a contract for a 12 month term and get pricing at the 24 month term rate;
- Sign a contract for a 24 month term and get pricing at the 36 month term rate; or
- Sign a contract for a 36 month term and get pricing at the 60 month term rate.

This promotion is valid through March 30, 2002.

SECTION 10 – PROMOTIONAL OFFERINGS *continued*

10.2 Satisfaction Guarantee Promotion

This promotion is available to new and existing Customers who enter into a new term agreement with the Company of not less than 36 months and where capabilities exist for any of the following services:

Integrated Business Line, VersiPak, ISDN PRI Two-Way, Digital Trunks,
Dedicated Internet Access T1, Dedicated Web Hosting, InterLATA Private
Line T1 (off-net specifically excluded) or IntraLATA Private Line T1.

If the Customer is not satisfied with the Company's service and notifies the Company in writing within 90 days of inception of the applicable service, the Customer may cancel that service without incurring termination charges. The Company will reimburse the Customer up to \$750 per T-1 for the nonrecurring and/or access charges and/or long distance PIC charges the Customer incurred or will incur upon switching to another provider. Termination liability charges will be applied for cancellation of service after the first ninety (90) days of service.

This promotion is available to Customers who entered into a new term agreement as described above from December 1, 2001 through March 30, 2002.

10.3 "Mission Possible" Promotion

(N)

The following "Mission Possible" promotion packages are available to local Customers who subscribe to the Company's Integrated Business Line or VersiPak service between April 4 and July 31, 2002. Service must be installed no later than August 30, 2002. Each package can include voice, Internet and toll service. The Customer may mix any combination of voice and Internet channels within each package. Voice channels can include business lines, trunks or any combination thereof. Customers must maintain the product channel minimums and maximums for their particular package throughout the contract term. Customers purchasing a Mission Possible promotion package will receive Combined Caller ID, Call Forwarding, Call Waiting and Hunting services at no extra charge. Additional charges may apply where service is provided on an Off-Net basis.

10.4 FlexCall Promotion

The following FlexCall long distance package is available to long distance Customers who subscribe to the Company's Integrated Business Line or VersiPak service between April 4 and July 31, 2002. Service must be installed no later than August 30, 2002.

Only domestic long distance and toll free service are included in this promotion. If the Customer's usage exceeds the defined package minutes, a per minute rate will be charged for each additional minute. If the Customer does not use the entire amount of the packaged minutes, the monthly recurring charge remains the same. The unused minutes do not carry forward to the next month. Multiple packages may be combined. One package per customer location.

SECTION 12 - INTEGRATED BUSINESS LINE /VERSIPAK SERVICES

(N)

12.1 VersiPak IPRI Service

12.1.1 VersiPak IPRI is an integrated, packet-based access solution designed to deliver PRI and Internet services over a single DS-1 (1.536 Mbps) transport facility. Customers may purchase up to 22 PRI trunks (one D and 21 B) with any remaining bandwidth sold as Internet Bandwidth CIR. The Internet PIR would be equal to the total of the PRI channels and the Internet CIR. The PRI trunk will consist of a single D channel and the remaining trunks will be provisioned as B channels. This is accomplished through Voice Activity Detection (VAD) and Silence Suppression, which allow bandwidth that is normally stranded during the silent portions of voice calls to be reallocated for Internet transmissions.

VersiPak IPRI requires a minimum of 6 PRI trunks for voice (one D channel and five B channels) and 128K (two DS-0 equivalent channels) for Internet access. Internet access is offered in increments of 128K.

12.2 Integrated Business Line / VersiPak Packages

12.2.1 Service Description

IBL and VersiPak Packages bundle voice and internet services with discounted pre-packaged long distance plans to create a value-packed solution for small to medium sized business Customers. Package voice channels may be lines or analog or digital trunks. Customers may mix voice and internet channels in any manner they choose, as long as the total channels ordered fits within each package channel guidelines and meets the Company's IBL and VersiPak minimum service requirements.

On-Net Customers must purchase a minimum of eight (8) total channels - six (6) voice and 128K Internet.

Off-Net Customers must purchase a total of 12 channels - six (6) voice and 128K Internet - plus four (4) additional channels

Customers may order the Company's FlexCall packages for use in conjunction with the IBL and VersiPak packages. FlexCall packages are located in Section 8 of this tariff.

12.3.2 VersiPak Mach3 Service

A. Description

The VersiPak Mach3 consists of 4.5 Mbps of Integrated voice and Internet bandwidth. Customers may purchase up to 36 (dependant on IAD card configuration) equivalent voice channels with any of the remaining bandwidth sold as the Internet bandwidth CIR. The voice channels may be analog (lines or trunks), digital (trunks or PRI) or a combination of both and must fit the IAD card configuration. The OutBurst SB is an IAD that integrates voice and data services into a single shared uplink that can provide maximum efficiency by dynamically allocating bandwidth between voice and data. The SB has a built-in Fast Ethernet interface and three universally configurable slots. One of the slots is used for the uplink to the PPN. The other two slots can be configured for analog or digital voice. The analog voice module supports up to 12 POTS interfaces. One or two of these modules may be used in a SB. The digital voice module supports one DS1 with up to 24 DS0 channels. The voice configuration must fit within the card port capacity of the FXS, FXO and/or DS1v cards.

<u>VersiPak Mach3</u>	<u>Minimum</u>	<u>Maximum</u>	<u>CIR</u>	<u>PIR</u>
Voice	8 Channels	36 Channels	N/A	N/A
Internet*	2048 Kbps	3584 Kbps	Customer Specific	4.5 Mbps
Voice & Internet	56 Channels	72 Channels	N/A	N/A

**Total Internet throughput is less than the actual CIR due to the bandwidth used for packet headers.*

- Internet channels must be ordered in increments of 512 kbps.
- Peak Information Rate (PIR) is equal to the total voice and Internet bandwidth.

Rates and Charges

A. HPC Rates and Charges

Company offers all HPC features as a bundled set with the exception of RSVP and OA&M Data Collection and Delivery. These exceptions are separately priced and offered to the GETS IC as options.

HPC Service Preparation Charge \$650.00

A one-time charge covering costs that are independent of the quantity of switches (e.g., product management, development of methods and procedures for implementation, identifying trunk groups for trunk queuing, network acceptance testing, etc.).

HPC Nonrecurring Per Switch Charge \$182.00

A one-time implementation charge per end office or access tandem switch (e.g., provisioning a switch to set HPC, provision Trunk Queuing on trunk groups).

Rates and Charges *continued*

A. HPC Rates and Charges

HPC Monthly Recurring Per Switch Charge \$30.00

Firm-fixed monthly charge per end office or access tandem switch to cover ongoing costs (e.g., maintenance, standard operational readiness testing, resources utilization, etc.).

HPC Service Change Charge \$150.00

A one-time per switch charge for any request for HPC service configuration changes, including changes to the numbers provisioned to set HPC and Trunk Queuing parameters. This charge is independent of the number of activities included in an individual switch change request.
